

# Eyes Wide Open

With our eyes wide open  
We'll fight til broken  
We'll rise, with our eyes wide open  
We'll fight til broken  
We'll rise

Now I be living with my eyes wide,  
I rise like the high tide  
Rise for the cause so I put aside  
my pride  
Put aside my ego, I do this for the  
people  
We're all created equal, every one  
of you is DISL  
And I am every one of you, no  
matter where you from  
Or who you are, or how you  
choose to live  
What you believe in, what you do  
I can disagree with your views  
without judging you  
I can disapprove on what you do  
but still have love for you  
If you just a kid, if you 100 or you  
22  
Age is nothing but a number, I am  
above none of you  
I am like a father, brother,  
husband, or a son to you  
I believe if we unite we'll see our  
dreams coming true  
Rise is what we gonna do, fight  
until we broken  
My eyes are wide open, I'm  
focused on helping the hopeless  
The media can quote this, tell 'em  
that DISL said it  
It's power to the people, you better  
never forget it

With our eyes wide open  
(With our eyes wide, we gon' keep  
our eyes wide)  
We'll fight 'til broken  
(You know what we do, come on)  
We'll rise, with our eyes wide open  
(Check. With our eyes wide, we  
gon' keep our eyes wide)  
We'll fight 'til broken,  
(You know what we do)  
We'll rise

With our eyes wide open we  
hoping to make a change  
We gon' fight until we broken you  
know this is not a game  
We gon' rise above the suffering,  
struggling and the pain  
'Cause our hearts are full of love  
so there's nothing we can't attain  
We will rise up for freedom and we  
will defeat the odds  
If we create what we believe in,  
our inner being is God  
You are your own saviour, that's  
the truth of human nature  
But you're made to feel weak so  
then it's easy to enslave y  
We came from the stars and the  
moon up in the sky  
You and I was reflected inside of a  
human eye  
You deny what you are is a  
spiritual suicide  
You and I will be forever 'cause  
energy never dies  
We will rise up in peace, we will  
rise up in love  
There are no obstacles that we  
can't rise up above  
We must rise up together, unity is  
our salvation  
Our greatest enemy's the illusion

of separation

With our eyes wide open  
(Check. With our eyes wide, we  
gon' keep our eyes wide)  
We'll fight 'til broken,  
(You know what we do, come on)  
We'll rise with our eyes wide open  
(Check. With our eyes wide, we  
gon' keep our eyes wide)  
We'll fight 'til broken  
(You know what we do)  
we'll rise

(We will rise with eyes wide open  
we will rise with eyes wide open  
we.....)  
To all my people world wide  
This time look with your eyes  
Just put your fist up high  
Divided we will fall but united we  
will rise

With our eyes wide open  
We'll fight til broken  
We'll rise, with our eyes wide open  
We'll fight til broken  
We'll rise
